**Commercial Solar Energy
Makes Good Business Sense**

More and more businesses are cutting electricity costs by adding solar installations to fuel their operations. In just four years, collective solar capacity for American businesses has increased 300%. [Read more.](#)

ENERGY

Chicago Goes 100% Renewable Setting Goals for Public Buildings

"As the Trump administration pulls back on building a clean energy economy, Chicago is doubling down," said Mayor Rahm Emanuel. "By committing the energy used to power our public buildings to wind and solar energy, we are sending a clear signal that we remain committed to building a 21st century economy here in Chicago." [Read more.](#)

TELECOM

Mobility as a Service Is it Right for Your Organization?

Employers are rethinking the practice of allowing employees to use their own mobile devices for business. Mobility-as-a-Service (MaaS) can wrap the price of devices into the service package while providing more options for security and management functions. [Read more.](#)

WASTE

Technology is Coming Waste Collection Practices Begin to Change

The Internet of Things (IoT) has changed the way companies think about their business, but technology and the waste industry have been slow to partner. Though the "smart waste" collection sector is still in infancy, the IoT is spawning growth. [Read more.](#)
